## LETTER OF TRANSMITTAL

UNITED STATES DEPARTMENT OF LABOR,  
CHILDREN'S BUREAU,  
*Washington, December 1, 1941.*

MADAM: There is transmitted herewith a Glossary of Certain Child-Welfare Terms in Spanish, Portuguese, French, and English.

Under a resolution passed at the Sixth Pan American Child Congress held in Lima, Peru, in 1930, the International American Institute for the Protection of Childhood, with headquarters in Montevideo, Uruguay, was entrusted with the preparation, before the next congress, of a glossary of child-welfare terms in the four languages spoken on the American continents—Spanish, Portuguese, French, and English.

By arrangement between the Institute and the Children's Bureau a glossary was compiled by Anna Kalet Smith of the Bureau staff and was issued in 1935 in mimeographed form, as a preliminary draft, in time for the Seventh Pan American Child Congress held in that year in Mexico City.

With the development of child-welfare work in the American countries in recent years and the consequent growth of the child-welfare vocabulary and literature in those countries, it has been found possible to add many new terms to the glossary.

The present work is a revised and enlarged edition of the preliminary draft and is intended especially for distribution at the Eighth Pan American Child Congress to be held in Washington May 2-9, 1942.

Respectfully submitted.

KATHARINE F. LENROOT, *Chief.*

HON. FRANCES PERKINS,  
*Secretary of Labor.*

## PREFACE

The foreign-language terms in this glossary were obtained from child-welfare publications in the Spanish, Portuguese, and French languages and are given here with equivalent terms as used in this country. For each list of terms in a foreign language, a corresponding list is given of the English-language terms in that list with their meanings in the foreign language. Especially in the Spanish list, in some instances explanations rather than equivalents are given, and frequently there is included a reference to the publication in which a particular term was found.

The purpose of this glossary is to facilitate the use of child-welfare literature published in this country, particularly by readers in the other American Republics, and the use by readers in this country of material published in the Spanish, Portuguese, and French languages.

The list of terms at present is of course far from complete. Suggestions of additional terms for inclusion in a supplement will be appreciated by the Children's Bureau.

## SOURCES

In view of the occasional differences in the use of the same child-welfare terms in the Spanish-speaking American countries and the appearance of new terms in recent years, it was considered advisable in some cases to add the sources from which the terms were obtained. For some of the longer titles of publications the following abbreviations are used:

*Bol. Inst. int. am. prot. inf.*----- *Boletín del Instituto internacional americano de protección a la infancia*, Montevideo.

*Bol. Mus. soc. arg.*----- *Boletín del Museo social argentino*, Buenos Aires.
